

Bibliography of the history of knitting before 1600

Compiled by Lesley O'Connell Edwards

The *Bibliography of the history of knitting before 1600* was a project of the now-ceased Early Knitting History Group, founded by Montse Stanley. The original compiler was Richard Rutt, and then it was taken over by Lesley O'Connell Edwards. It was accepted for publication in *Bulletin du CIETA* n.77 (2000) in November 1999, and since then other references have been traced. This document is a merging of the title included in the *Bulletin du CIETA* article, and the titles found since then. It is based on the classification scheme in used for the original *Bibliography*.

It is an on-going listing and Lesley welcomes other references. If you know of items not included here, then please contact her – her email is GaladrielNOFatyahoo.com
